

Participants: Søren Christian, Julie, Emmanuel (Kenya), and Glennie.

1. Chimney Project

- Salomon, the photographer, will receive **KES 300 per chimney** for taking photos and uploading them to Kobo.
- **13 new chimneys** have been built, bringing the total to **247 chimneys**.

2. Funding and Documentation

- On **18 September**, Søren Christian and Glennie will meet to work on documentation for the foundations that have supported the project and to apply for new funding.
- The project has successfully reached its goal of **250 chimneys**.

3. New Funding Opportunities

- **Rotary:** We will contact Rotary, where we have previously given a presentation, to ask whether they would be interested in sponsoring the project.
- **Members:** We will contact our members again and ask whether they would like to renew their membership for another year.
- **Red Cross:** We are in contact regarding future presentations. The expected fee is approximately **KES 3,000 for one hour** and **KES 5,000 for 1.5 hours**.
- **Yemen's Højrygning:** This group has funded us previously, and we hope they will support us again. Our contacts are **Karina and Dan**.

4. Purchases for the Chimney Project

- Emmanuel is authorised to purchase necessary materials for the Maasai community, including wheelbarrows and plastic materials.
- To save on transportation costs, he can purchase the materials and bring them with him in his car when travelling to the area.
- Emmanuel will send the invoices to Glennie.
- All expenses related to chimneys are covered by **Go Kenya Change**.

5. Team Chimney – Bonus

- Team Chimney has reached its target of **250 chimneys**.
- The team will therefore receive a bonus of **KES 70,000**.
- Emmanuel may transfer the **KES 70,000 bonus** together with his remaining salary of **KES 30,000**.

6. Kioja Team – Drought Situation

- Emmanuel will follow up with the **Kioja Team**, as the area is currently experiencing severe drought.
- Rain was expected in August but has not yet arrived.
- Many people have left their villages, and the chimney project is currently on hold until the rains come.
- Weather forecasts indicate that rain may arrive in the coming days.
- The available water is being distributed among the people who remain, primarily mothers and children. Many others have moved closer to Mount Kenya.

- The **borehole in Kioja** was damaged by an elephant. The team is investigating the problem and will let us know if there is anything we can support.
- If support is needed, we will consider making a **Facebook post** to raise awareness.

7. CISU Funding Application

- We applied for funding through **CISU / the Danish Civil Society in development**, but unfortunately received a rejection.
- The application process is very demanding, including a **10-page application in English**.
- We will now receive guidance to improve our application and hope to apply again for funding in **Q1/Q2 2027**.
- The funding would support the continuation of the chimney project as well as new projects focusing on **strengthening women's voices and identities and supporting opportunities for small businesses in Kenya**.

8. Next Board Meeting. 31 October 2026. Danish time 11.00 am

Thank you for the good cooperation.

We look forward to continuing our work together.
